

# Travelling to City

If you are slightly worried about the travel journeys to and from school, unsure about whom you could travel with if you're alone or simply want to know which other City girls may live nearby and come from the same stop or station, have no fear!

Our travel buddy scheme is set up so that your journeys don't become long, scary or boring! There are so many City girls in all different years coming from all different areas.

We will pair you up with a current pupil who travels from the same area and put you in touch so you don't have to worry about travelling to school on your own! We will also link up girls who will also be starting Year 7 so that you can travel together.
